September 1950

This Preliminary Gazetteer for Rumania is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Rumania.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 10,700 entries for places and features in Rumania, with boundaries as indicated on *Map of Rumania*, Department of State, Washington, 1947, scale 1:1,500,000. Rumanian sources were used in standardizing the names, and Rumanian practice was generally followed with regard to article endings and the inclusion or omission of generic terms.

Glossary of generic terms

The following glossary contains generic terms that occur in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the standard names.

Many Rumanian words have two forms, called indefinite and definite, in both the singular and the plural. In the glossary, the definite ending is indicated in parentheses; e.g., the entry lac(u, ul) is to be interpreted as lac, "lake," and lacu or lacul, "the lake"; insulă(-a) means insulă, "island," and insula, "the island."

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Standard names and cross-references from variant names appear in the first column. In some cases, two or more names are approved for a feature, and each is listed, with bracketed identification. In the case of entries in which part of a standard name is underlined, the use of the nonunderlined part is optional. Names beginning with a generic term are alphabetized by the specific term; thus Haltă Aerostatie is listed as Aerostatie, Haltă.

Designation.—Designations in the second column are sometimes abbreviated and represent groups of features, as follows:

|      |                     |      |                 |
|------|---------------------|------|-----------------|

| ENTR | river entrance      | MTS  | mountains       |
| GRGE | gorge, defile       | POPL | populated place |
| HILL | hill(s), hilly area | REGN | region          |

Latitude and longitude.--Coordinates (third and fourth columns) are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Administrative division.--The number in the fifth column, 376, is the area code number assigned to Rumania.

Source.--The code number in the last column indicates a map source on which the feature may be located by its standard name or a name recognizable as a variant of its standard name. The numbers refer to the following sources:

- 01 [Rumania], Institutul Geografic Militar, Bucharest, 1937-44; scale 1:500,000.
- 02 General Ctin. Teodorescu, *Atlasul Judetelor României*, Institutul Cartografic "Unirea," Braşov, 1929; scale 1:300,000.
- 03 *Harta României*, Institutul Geografic Militar, Bucharest, 1937; scale 1:1,000,000.
- 04 *Carte de la Roumanie: Partie Occidentale*, Institut Géographique de l'Armée, Bucharest, 1945; scale 1:750,000.
- 05 C. Dem. Popescu, *Romania Harta Drumurilor și a Liniilor C.F.R. cu Numele Statiunilor Balneare și Climaterice* (Map of

Roads and Lines of the Rumanian Railways with Names of Resort Stations), 1947; scale 1:1,350,000.

06 M. D. Moldoveanu, *Harta României*, E. Marvan, [1929]; scale 1:300,000.

07 D. Moldoveanu, *Harta României, Fizică-Administrativă și Turistică*, Editura Librăriei Socec, 1945; scale 1:1,000,000.

The code 00 is used following cross-references and for the few standard names from sources other than those listed.

#### Reporting of errors

It is requested that all who use this gazetteer aid in its correction for subsequent printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.

#### Other gazetteers

The following publication may be useful as a finding list, though the names in it are not approved by the Board as standard names:  
*Romania South of 47° N.: Index Gazetteer Showing Place Names on the 1:250,000 Map Series*, Survey Directorate, General Headquarters, Middle East, Cairo, 1945; 124 pp. Provides designation and grid reference for each name.
